

PURE CRABBET

Helwa Nishtar or know at home as Mick is an 17yr old grey 100% crabbet stallion standing at 15.1 hands and has some lovely old bloodlines.

It is very rare to find the perfect horse, with great bloodlines, sound conformation and the all important temperament. But when I saw Nishtar I knew that I had found one of those rare but wonderful peaces of perfection.

Nishtar is the old style of crabbet stallion, a very athletic type of horse, with long ground covering strides and wonderful strong sound conformation.

Nishtar has been successful at endurance and did obtain his yellow book in his younger days. We have not currently done any endurance or showing with Mick, but have found him to be a wonderful horse to ride and handle in any sort of situation. As well as being used as a companion ride horse for our young and up and coming horses. He is only being offered for sale due to family illness so we are cutting back on our stallions Being offered at \$6500 for any further information on Mick you can either email or phone us on 07-54262804 or 0421674838 or you can visit our website at
